Subject: RE: Interview with Toxicologist

Thank you Libby.

I was really hoping to talk with her about the metal levels in the river declining.

I understand that is part of the natural process of metals settling to the bottom of the river.

I was also hoping to talk with her about the metal levels that are naturally occurring.

I will be available until 4 p.m. today if she has anytime at all.

Thank you for your help,

Mary Shinn

Hi Mary,

I hope to follow up with our Toxicologist when she returns from Silverton to better understand her schedule. I'll be in touch. Libby

Subject: Interview with Toxicologist

Hi Mary:

I believe that we will be able to get an interview scheduled for you to talk with one of the EPA toxicologists tomorrow. This should help you get answers to your questions around context for the data. I have copied Libby Faulk, the EPA PIO, who will help coordinate this.

Thank you,

Flannery O'Neil, MPH
